

# 8-BIT BIDIRECTIONAL BINARY COUNTER

The MC74F269 is a fully synchronous 8-stage up/down counter featuring a preset capability for programmable operation, carry look-ahead for easy cascading and a  $U/\bar{D}$  input to control the direction of counting. All state changes, whether in counting or parallel loading, are initiated by the rising edge of the clock.

- Synchronous Counting and Loading
- Built-In Lookahead Carry Capability
- Count Frequency 115 MHz Typical
- Supply Current 95 mA Typical

H = HIGH voltage level steady state

h = HIGH voltage level one set-up time prior to the LOW-to-HIGH clock transition

L = LOW voltage level steady state

l = LOW voltage level one set-up time prior to the LOW-to-HIGH clock transition

X = Don't care

q = Lower case letters indicate the state of the referenced output prior to the LOW-to-HIGH clock transition

↑ = LOW-to-HIGH clock transition

(a) = The TC is LOW when CET is LOW and the counter is at Terminal Count. Terminal Count Up is with all Q<sub>n</sub> outputs HIGH and Terminal Count Down is with all Q<sub>n</sub> outputs LOW.
