

Xinger®

Ultra Low Profile 0603 RF Crossover

Description

The (patent pending) X0066L7575A00 is an ultra-small low profile crossover that enables the transition of two intersecting RF traces in an easy to use industry standard SMT package. The 0603 crossover is ideal for any critical applications where layout and available space are a premium and resorting to addition PWB layers and larger overall footprints are unacceptable. With low insertion loss and high isolation packaged with cost in mind, this novel component delivers.

Detailed Electrical Specifications*: Specifications subject to change without notice.

Features:	Parameter	ROOM (25°C)			Unit
		Min.	Typ.	Max	
<ul style="list-style-type: none"> • 0 – 2500 MHz. • 0.7mm Height Profile • 75 Ohm RF-RF Crossover • All Wireless Frequencies • Low Insertion Loss • High Isolation • Surface Mountable • Tape & Reel • Non-conductive Surface • RoHS Compliant 	Frequency	0		2500	MHz
	Port Impedance		75		Ω
	Return Loss	19	21		dB
	Insertion Loss		0.1	0.15	dB
	Isolation (cross-talk)				
	0 – 700 MHz	44	52		dB
	700 - 1700 MHz	40	47		dB
	1700 - 2500 MHz	38	43		dB
	Power Handling			2	Watts
	Operating Temperature	-55		+85	°C

Mounting Configuration:

In order for Xinger surface mount components to work optimally, the proper impedance transmission lines must be used to connect to the RF ports. If this condition is not satisfied, insertion loss, Isolation and VSWR may not meet published specifications.

All of the Xinger components are constructed from ceramic filled PTFE composites which possess excellent electrical and mechanical stability having X and Y thermal coefficient of expansion (CTE) of 17 ppm/°C.

An example of the PCB footprint used in the testing of these parts is shown on below. In specific designs, the transmission line widths need to be adjusted to the unique dielectric coefficients and thicknesses as well as varying pick and place equipment tolerances.

-  Circuit Pattern
-  Footprint Pad (s)
-  Solder Resist

Dimensions are in Inches [Millimeters]

Packaging and Ordering Information

Parts are available in reel and are packaged per EIA 481-2. Parts are oriented in tape and reel as shown below. Minimum order quantities are 4000 per reel. See Model Numbers below for further ordering information.
