

LF SERIES

Common mode chokes with UI cores

Features

- 0,3 to 5A ratings, low temperature.
- 0,6 to 50 mH, dual chokes.
- An open-body anti-noise choke coil a large inductance for a great noise control effect.
- Excellent mechanical strength
- 100KHz to 3MHz common node resonance.
- High reliability and variant PCB-mount housing
- Suitable for wave soldering
- Low resistance and temperature rise.
- Suitable for high-density insertion
