

XWD SERIES - DUAL OUTPUT, 180 WATT

DESCRIPTION

XWD dual output, DC to DC converters are high powered converters that cover a wide range of applications. Available input voltages include 12V, 24V, 40V, and 48V. Output voltages are available from 5V to 15V. The XWD features remote sense leads for accurate point of load regulation, and has short circuit and overcurrent protection. For single and triple output high power solutions, see the XWS and XWT series of converters.
